(54) Title: NOTIFICATION OF EVENTS USING MMS IN A PORTABLE COMMUNICATION DEVICE

(57) Abstract: The present invention relates to a method of
using playable electronic media messages for notification of
events in a portable communication device, such a portable
communication device as well as a computer program product
and a computer program element for performing the method.
The portable communication device (10) comprises an event
handling unit (24; 28; 32), and a playable electronic media
message handling unit (24), wherein the playable electronic
media message handling unit sets at least one obtained
playable electronic media message for use as a notification of
at least one event handled by the event handling unit, such that
the portable communication device can play the electronic
media message in order to notify a user of the event.
